

DERP At-A-GLANCE

What is DERP?

The Denver Employees Retirement Plan (DERP) is a comprehensive provider of retirement, disability, and death benefits to eligible active, retired, and former City and County of Denver, Denver Health and Hospital Authority, and DERP staff. As a trusted administrator of the city's pension for over 50 years, we partner with members to build, plan, and live a secure retirement future through member education, prudent investment management, and exceptional service.

At a time when 64% of American households lack any form of protected, guaranteed retirement income, DERP is a valuable retirement benefit.
